Sincere condolences to Goode family I am so very sorry for your loss. May God provide the necessary peace and comfort to your family .I remember when I first met Terry she was a woman who had taken me under her wing and gave me knowledge and treated me with the upmost respect. We would always joke around and just have "girl talk". I would always vent my stresses to her and she would always comfort me and give me advice. I will always cherish those moments and memories we had together. I'm going to miss looking across the office and being able see a woman with such a caring heart. I never got the chance to just thank Terry for everything she did for me and my family. Terry will always hold a special place in my heart. Terry May God Bless you and your family. Rest in Peace My Dear Friend. Until we meet again.Christine R Johnson

I remember when I use to go visit My mom at the office and I would walk in and Terry would always get up and give the best hugs you could ask for. No matter how she felt that day she always had a smile on her face. I'm going to miss her cheerful spirit and big hugs! Terry thank you for everything! I look forward to seeing you again in heaven! After we started getting GRANDkids , Terry got excited thinking about all of the time that we'd get to spend with them. At this time we had 8 GRANDkids so, surely we would have at least one or two of them on most weekends. After realizing that we were wrong and when we wanted to spend time with them , we would have to make appointment's well in advance. After Terry realized this she said" if our kids were lousy parents, we could spend more time with the GRANDkids ! Why do ALL of them have to be such good parents !? She was really proud of all of our kids.

So many great memories. If you knew Terry at all, you know that she was a animal lover, advocate, rescuer, rehabber, and spoiler. Several years back, Blake our middle son and Cody, Blakes friend brought Terry a baby squirrel that had fallen from its nest and wonder away. Terry named him Hammy, no I don't know why that name. She bottle fed him and got him to eating nuts. After she was comfortable that he could make it on her own, she released him in the front yard. She got to messing him and she asked if I thought that he'd come back and visit her. Sure baby just leave some Pecans on the front porch. lol A few months later she wanted to rent or borrow a man lift so she could get high enough to find his nest. Silly woman Another time she stopped in the middle of I10 during morning rush time to save a Turtle that was trying to cross the Freeway. She grabbed him and drove him to a park and released him. Crazy woman This is just two of the many animal stories.
