“ Gosh there is so many memories that your sisters Irene and Jessica and you. My sister and brother too. We all would hangout after school and come to my house and my mom would let us all hangout and chill. I can't believe that you're gone it feels like a bad dream. You always had been my friend since elementary school. After school days we just stopped talking we ended up being Facebook friends and talking through messenger. I really wished we had more time to hangout one last time. I hope you are resting peace and my prayers and heart goes out to the family.
