“ I send all my Condolences and sympathy To Eve's family and other friends. Eve and I went to high school together From the 10th grade And Spring branch high school and then I went on to memorial high school for my final year since they built it close to my home. Even I had lost touch after we graduated and married until I was in the hospital for something and she was across the Hall after she had her 1st baby. And we kept in touch from that point on. She made several moves to different cities and States. She was the sweetest kindest friend I knew. A wonderful person full of joy and she and I both loved animals. I remember when she was raising Afghans and I had to borrow one of her crates for my German shepherd who had just gone through heart worm surgery and A be brought over the crate which was large enough for me to even get in with my dog. That we had so much fun together all the years we knew each other. I took awake vacation when she lived in California and met Dale her husband and we had a wonderful week. She was so funny and we were Calling ourselves Twins of another mothers. She was so funny and had a great sense of humor and was so sad when she was brought down with COP D which is what my husband passed away with last June. Hey was just a Little ahead of her. She will be missed forever until we all meet in Heaven. Rest in peace my dear Eve.
